OBJECTIVE

I'm Ronil Shakya, a dedicated Bachelor of Computer Applications (BCA) with strong foundation in both graphic design and website development. I have a passion for creating visually appealing graphics and developing dynamic, full-stack web applications. My skill set allows me to combine creativity with technical expertise, enabling me to deliver user-friendly designs and efficient web solutions. I'm eager to apply my knowledge in both design and development to contribute effectively to any team or project.
